Dr Matthew Russell is an ophthalmic surgeon with subspecialty training in cataract and refractive surgery. He has over 20 years' experience as a qualified ophthalmologist and provides consultations and performs surgery across OKKO Eye Specialist Centre and VSON Eye Specialists, offering patients access to advanced vision correction options in both Brisbane locations.

Dr Russell is committed to delivering evidence-based, patient-centred care, ensuring each treatment plan is tailored to individual needs, lifestyle, and visual goals.

- Cataract surgery including the use of Extended Depth of Focus (EDOF) and Multifocal Intraocular Lenses (IOLs), selected according to individual visual requirements.
- Laser vision correction options such as LASIK, SMILE, Smart Sight, PRK, and TransPRK for patients seeking reduced dependence on glasses or contact lenses.
- Implantable Collamer Lens (ICL) surgery for patients who may not be suitable for laser vision correction, offering a reversible, lens-based solution for high myopia and astigmatism.
- Refractive Lens Exchange (RLE), a surgical option for patients, seeking a long-term solution for presbyopia or high refractive errors, using premium intraocular lenses.
